

**Debiprasad Dash**

dashprasad21@gmail.com | 8088804594 | Bhubaneswar, India

---

## Professional Summary

Full-stack developer with 4 years of experience specializing in JavaScript, TypeScript, and modern frameworks for web and mobile app development. Proficient in React Native, Node.js, Express, Angular, React, and Next.js. Adept at building scalable applications and deploying them using cloud services like AWS, Vercel, and Docker. Passionate about developing efficient, high-performance applications and continuously learning new technologies, including SwiftUI for iOS.

---

## Technical Skills

### Frontend Development

- Angular, React, Next.js

### Backend Development

- Node.js, Express, MongoDB, MySQL, Firebase, Supabase

### Mobile App Development

- React Native, Ionic

### CI/CD & Deployment

- Docker, Vercel, AWS (EC2, S3, SNS)

### Programming Languages

- JavaScript, TypeScript

### Tools & Platforms

- Expo, VS Code, Postman, Jira, GitHub, Bitbucket, Android Studio, Xcode
-

# Professional Experience

## Mindfire Solutions

### Senior Software Engineer (MEAN/MERN Stack) | 2022 - Present

- Developed and optimized React Native applications for seamless cross-platform performance.
- Built and maintained backend services using Node.js, Express, and MongoDB.
- Integrated Firebase and Supabase for authentication and real-time database operations.
- Led deployment strategies using AWS, Vercel, and Docker for scalable applications.
- Created multiple small-scale **React Native applications**, including:
  - **Weather App** using Rapid API for real-time weather updates.
  - **News App** using Rapid API for fetching latest news articles.
  - **Music App** integrating **Spotify API** for streaming and managing playlists.

## Vinnovate Labz, Bangalore

### Associate Software Engineer (MEAN/MERN Stack) | 2019 - 2022

- Developed web and mobile applications using React, Angular, and Ionic.
  - Designed and implemented RESTful APIs and database solutions with MySQL and MongoDB.
  - Improved application performance by optimizing state management and API calls.
  - **Developed a video calling application using OpenTok in React Native for mobile platforms.**
- 

# Education

## Silicon Institute of Technology, Bhubaneswar

### B.Tech in Electrical and Electronics Engineering | 2015 - 2019

- Percentage: 67%

## ODM Public School

### Higher Secondary (Class 12) | 69%

---

## Certifications & Learning

- **Data Science & Machine Learning Certification** – Scaler (Ongoing)
  - **React, Node, Ionic, React Native Certification** – Udemy
  - Currently learning **SwiftUI** for iOS development
- 

## Projects & Achievements

- Developed **VibeRoom**, a real-time video calling and chat application with document sharing, bookmarking, and screen sharing features.
  - Implemented CI/CD pipelines for automated deployment using **Docker, AWS, and Vercel**.
  - Optimized mobile app performance, reducing load times by **40%** through efficient state management and API caching.
- 

## Additional Information

- Active tech enthusiast; follows industry leaders like **David Heinemeier Hansson**.
  - Regularly reads and contributes to tech discussions on **Medium, Twitter, and LinkedIn**.
- 

## Availability for Interview

Available for interviews as per the TCS recruitment schedule. Looking forward to discussing how my skills align with the role at TCS.
